RE: Start-up of AQD #81 and #82 per CT-1347

Dear Dan:

Start-up of AQD #81 (Dryer Area Baghouse) and #82 (DR-6 Dryer ESP) was March 16, 2001. These sources were permitted under CT-1347, issued February 6, 1998. AQD# 76 (Primary Ore Screening Baghouse) and #79 (Ore Transfer Point Baghouse) are scheduled to start-up around the end of April. You will be notified of the exact date when known.

The stack test schedule for the new sources will be sent under separate cover.

If you have any questions, feel free to contact me at (307) 872-6571.

Sincerely,

Dolly A. Potter
Environmental Services Supervisor
